

Kashish Sonawane

AI & Data Science Engineer

Nashik, Maharashtra • +91 9356478986 • kashishsonawane725@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science undergraduate (CGPA: 8.64/10) with hands-on experience in Machine Learning, Python, NLP, and Generative AI. Proven ability to build and deploy AI-driven systems through internships, hackathons, and real-world projects. Strong foundation in data preprocessing, statistical analysis, and end-to-end ML workflows. Seeking opportunities to apply analytical thinking and problem-solving skills in data science and AI roles.

EDUCATION

Bachelor of Engineering — Artificial Intelligence and Data Science 2024 – 2028

[PVG College of Engineering & S.S. Dhamankar Institute, Nashik \(SPPU\)](#) | CGPA: **8.64 / 10.0**

Coursework: Data Structures & Algorithms, DBMS, OOP (Java), Web Technology, Data Science, Embedded Systems, E-Commerce

EXPERIENCE

Data Science Intern | [SkillCraft Technologies \(Remote\)](#) January 2026 – February 2026

- Performed data preprocessing, exploratory data analysis (EDA), and applied ML algorithms on real-world datasets.
- Contributed to data-driven decision-making workflows and gained experience in collaborative Agile environments.

Apprenticeship — Artificial Intelligence | [Acmegade](#) October 2024 – December 2024

- Completed an intensive AI program covering Machine Learning, Neural Networks, NLP, and Computer Vision.
- Built a CNN model using the MNIST dataset for handwritten digit classification using Python and TensorFlow.
- Applied prompt engineering and AI tooling to develop and evaluate practical AI solutions.

PROJECTS

SequenceSense AI — Internal Fraud Detection System · *Python, Machine Learning, Data Analysis* · 2026

- Led development of an AI-driven early warning system for privileged user fraud detection in public sector banks (PSBs Hackathon 2026, Team Lead — "The Shield", Code: PPUO8X).
- Designed a sequence-analysis anomaly detection model achieving 89% simulated precision on a test dataset of 10,000 synthetic bank transactions.

AI-for-Bharat — Karnataka Renewable Forecast Dashboard · *Python, Streamlit, Pandas, Data Visualization* · 2024

- Developed an interactive Streamlit dashboard for AI-based solar and wind power generation forecasting across Karnataka.
- Implemented P50/P10–P90 uncertainty band visualizations with dynamic Plant, Cluster, and State-level views using interactive filters.
- Integrated forecast driver analysis and operational recommendations; deployed on Streamlit Community Cloud/Render.

Spam Email Classification using Logistic Regression · Python, Pandas, NumPy, Scikit-learn · 2024

- Built a complete ML pipeline including data preprocessing, train-test splitting, model training, and evaluation for binary email classification.
- Evaluated model performance via confusion matrix and precision/recall analysis using the Spambase dataset.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript (ES6), Bash

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, BeautifulSoup, Selenium, Scrapy, Requests

AI & Data: Machine Learning, Deep Learning, NLP, GPT API, Prompt Engineering, LangChain, OpenRouter, EDA, Statistical Analysis, Power BI, Microsoft Excel

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Streamlit, Apify, Google Sheets API, Linux/Ubuntu

Concepts: Data Structures & Algorithms, REST APIs, OOP, ETL Pipelines, Web Scraping, Agile/Scrum, Operating Systems

CERTIFICATIONS

- Python for Data Science — IBM Cognitive Class (2026)
- Generative AI — LinkedIn Learning (2024)
- Building a Machine Learning Ready Organization (2024)

ACHIEVEMENTS & LEADERSHIP

- PSBs Hackathon 2026 (Team Lead), iDEA Hackathon 2026, Godavari Hackathon 2024, MVP Ideathon 2023 — consistent participation at national-level competitions.
 - Selected for Pragati Path Cohort 5 by Infosys — industry-focused mentorship and skill development program.
 - Campus Ambassador, GirlScript Summer of Code (GSSoC) — promoted open-source participation across the student community.
-
